5 Discussion of Town parks

Chairman Lang shared a map that details current parks and schools and possible areas where micro-parks could be added for the purpose of controlling sex offender's placement. There was a lengthy discussion about parks, green space and whether this was a Land Use Plan issue.

Chairman Lang reminded the committee that adding micro-parks would be a part of the Town's official map but was looking for input from the committee regarding the placement of the parks.

View reads an email from Rebecca Roberts. The email gave resources related to Chapter 980 and the sex offender registry. Roberts stated that purchasing small parcels is probably not a feasible option for the Town to add parks. Lang reminded the committee that he is looking to add micro-parks to the Town's right of ways.

Lang asked the group regarding next month's agenda items. There was a consensus to carry all of this month's items to the next agenda.
